CHAPTER I

GENERAL

I. GEOGRAPHICAL

1. The Alwar State lies between $27^{\circ}-5'$ and $28^{\circ}-10'$
Position. North Latitude and between $76^{\circ}-10'$
and $77^{\circ}-15'$ East Longitude.

2. Its area is 3,217 sq. miles and its extreme length
Area and Lands and breadth is 80 miles and 60 miles
respectively. Out of the total area of
3,217 sq. miles, approximately 2,627 sq. miles are plains
while the remaining 590 sq. miles consist of hilly tracts.
The hills form a part of the Aravalli Range and in some
places rise to about 3,000 ft. above sea level.

3. The State is bounded:—
Boundary

(i) on the North by the Gurgaon District of the
Punjab and by the states of Nabha and Jaipur,

(ii) on the East by the Bharatpur State and the
Gurgaon District,

(iii) on the South by the Jaipur State, and

(iv) on the West by the States of Nabha, Patiala
and Jaipur.

4. The State consists of 10 administrative sub-areas known as Nizamats which are distributed in two Districts as follows:—

(i) The Northern District-consisting of the Nizamats of Alwar, Behror, Mandawar, Kishangarh and Tijara.

(ii) The Southern District-consisting of the Nizamats of Ramgarh, Lachhmangarh, Rajgarh, Thanagazi and Bansur.

5. According to the census of 1941 the population of the State including Nimrana Estate is 8,23,055 as detailed below:—

6. The average annual rainfall in the State is 25" and the maximum and the minimum temperatures in mid-summer and mid-winter

Rainfall, temperature
and Climate

are 120°F and 32°F respectively. The climate is dry and extreme like that of the eastern Punjab districts and is invigorating. Hills, plains and forests make an agreeable variety, and the winter with the dry cold is very healthy and delightful.

7. There is no river in the State which is perennial in its entire course. The two large rivers are
 Rivers the Ruparail and the Sahibi. The Ruparail in the South of the State rises from the hills of Thanagazi. Its water is divided at the Bara weir in the Alwar State, one portion being retained by the Alwar State and the other passing on through Alwar territory to Bharatpur. The Sahibi in the North traces its origin from the Sewar Hills in the Jaipur State and passes through the Bansur and Mandawar Nizamats to continue again into Jaipur territory.

8. The State is on the whole fertile and wheat,
 Crops and Minerals barley, jwar, gram, maize and rapeseed are the principal crops.

The hills furnish a large quantity of fire-wood and grass. Several mineral products are found but the resources in this respect have not yet been tapped to any great extent. Marble, slate, iron, copper, mica, saltpetre, red-ochre barytes, quartz etc. are found in varying degrees.

9. The usual domestic animals are buffalo, horse,
 Animals and Birds camel, sheep, goat, and cow. Amongst the wild animals may be mentioned tiger, panther, sambher, nilgai and gphantali. peacock, partridge, duck and a large variety of smaller birds are also found all over the State.

10. The principal towns and total number of villages

II. HISTORICAL

15. The Ruling family of the Alwar State traces its origin from the Solar Dynasty. Rama the divine hero of India's greatest epic 'Ramayana,' was the brightest and most brilliant jewel of this line. Although thousands of years have rolled, this great king still lives in the memory of millions of Hindus throughout the length and breadth of India. There are very few Hindu houses where he is not revered or respected. Ramayana which is a biography of his life is perhaps read more widely than any biography in the world.

His Highness Shri Sewai Maharaj Sir Tej Singhji Bahadur K. C. S. I., the present Ruler of the Alwar State, is a direct descendant of the great king Rama through his elder son Kush. The descendants of Kush continued to rule for centuries together over a large territory in northern India, from Ayodhya their ancient capital in the present day Oudh, After several thousand years they however migrated to Rohtas near the Sone river and ruled over the surrounding country for several centuries. From there they migrated to Narwar and Gwalior where they lived and ruled for sometime but in their final move they came to Rajputana and made the country round Dausa and Amber, the present-day territory of Alwar and Jaipur State, their home.

Raja Udaikaran ruled over this territory near about the middle of the 14th Century. He had two sons-Bar Singh and Nar Singh. Bar Singh the elder gave up his right of succession in favour of his younger brother Nar Singh whose line continues today as Rulers of the Jaipur State. Bar Singh's grand-son Rao Naru was the founder of Naruka House. His descendant Rao Kalyan Singh settled in what is now the Alwar territory. Rao Pratap Singh, the seventh in descent from Rao Kalyan

Singh and 14th from Raja Bar Singh, the elder son of Raja Udaikaran, founded the Alwar State. The Alwar Ruling House thus represents the Senior Line of the Solar Dynasty in India. It was on the 25th of November 1775 that Rao Pratap Singh entered the massive fort of Alwar hoisted his flag and proclaimed his Independence. This flag has been kept flying in its five colours at its original place on the picturesque fort of Alwar by successive Rulers after him.

16. *Founder of the State:*—Rao Pratap Singhji was born in 1740 and at the age of 35 through his courage and ability and with the help and cooperation of 5 associates and members of the Naruka family known as 5 Thikanas or 5 Houses carved for himself the independent State of Alwar. The Moghul Emperor, Shah Alam, conferred upon him the title of "Rao Raja" and "Panch Hazari Mansab" (General of Cavalry of Five thousand) and presented him with the much coveted Royal Insignia of "Mahi-Maratib" (the Fish). He died in 1791 and was succeeded by his adopted son, Bakhtawar Singhji who came from Thikana Thana.

17. *The Second Ruler:*—Maharao Raja Sewai Bakhtawar Singhji was only 12 years of age when he succeeded to the "Gaddi." During his rule, treaty relations with the British Government were entered into, and he rendered valuable services to Lord Lake during the latter's campaign against the Mahrattas with the result that in 1803 the first Treaty of "Offensive and Defensive Alliance" was concluded between Alwar and the East India Company. Maharao Raja Bakhtawar Singhji died in 1815 and was succeeded by his adopted son Viney Singhji who also came from Thikana Thana.

18. *The third Ruler*:—Maharao Raja Sewai Viney

Viney Singhji
1815-1857

Singhji was a very capable administrator. He has left his permanent mark on Alwar by the construction of a number of fine buildings, such as, the City Palace, the Viney Vilas Palace, several gardens, Sagar - the tank behind the City Palace, the beautiful cenotaph of his father Bakhtawar Singhji, etc. He also laid the foundation of the State Library and Armoury. He proved his loyalty to the British Government by rendering assistance during the Mutiny of 1857 to the beleaguered garrison at Agra. He died in 1857 and was succeeded by his son Maharaj Kumar Sheodan Singhji.

19. *The Fourth Ruler*:—Maharao Raja Sewai Sheodan

Sheoda Singhji
1857-1874.

Singhji, was a minor when he came to the "Gaddi" and did not attain his majority until 1863. In 1867 he was granted a permanent salute of 15 guns. The Maharao Raja died in 1874, leaving no lineal or adopted heir and was succeeded by Mangal Singhji selected from Thikana Thana.

20. *The Fifth Ruler*;—His Highness Maharaja Shri

Mangal Singhji
1874-1892

Sewai Mangal Singhji succeeded to the "Gaddi" at the age of 15 years. He was one of the first students of the Mayo College, and turned out to be one of the finest Rajput administrators of his time. The British Government conferred upon him the hereditary title of Maharaja and the title of G. C. S. I. He took keen interest in the organisation of the State's Imperial Service troops. He died at the early age of 33 in 1892 and was succeeded by his son Maharaj Kumar Jey Singhji.

21. *The Sixth Ruler*:—Col. His Highness Shri Sewai

Jey Singhji
1892-1937

Maharaj Sir Jey Singhji succeeded to the "Gaddi" at the age of 10 years, and was invested with ruling powers on the 10th December, 1903 by His Excellency Lord Curzon, the then Viceroy of India.

He was a fine polo player, an excellent shot, a scholar and an orator of high order. He was created K. C. I. E. on the 1st June 1909, K. C. S. I. on the 12th December 1911; G. C. I. E. on the 1st January 1919 and G. C. S. I. on the 3rd June 1924. He was appointed Honorary Lieutenant Colonel in the British Army on the 1st January 1921. In the same year the permanent local salute was raised to 17 guns. He attended the Imperial Conference held in London in 1923 as a representative of India, and was a prominent figure in the Chamber of Princes and at the First Round Table Conference. He died in Paris in France on the 19th May 1937 leaving no lineal or adopted son. He was succeeded by Tej Singhji who came from Thikana Thana.

22. *The Seventh and the Present Ruler*—His Highness
TEJ SINGHI Sewai Maharaj Sir Tej Singhji succeeded his late Highness Maharaj Sir Jey Singhji on the 22nd July 1937. His Highness was born on the 19th March 1911. He is the second son of Raja Ganga Singhji of Shrichanpura from where he went to the Thana House. His Highness was educated privately and was married to the daughter of Maharaj Akhey Singhji of Jodhpur, a member of the Jodhpur Ruling House. The Alwar House has been connected by marriage with the Ruling Houses of Bikaner, Jodhpur, Kishangarh, Jamnager, Ratlam, Jhalawar and Shahpura and with Dhuva, Khirasara and Rajpura in Kathiawar. He was created K.C.S.I. on the 2nd June 1943. His Highness has two sons and two daughters. Maharaj-kumar Pratap Singhji, the heir-apparent was born on the 17th June 1938 and the second Maharajkumar Yashwant Singhji was born on the 19th September, 1939.

23. The Alwar State has been formed by the acquisition and consolidation of surrounding territories by successive rulers and of certain Parganas granted by the British Government. The State may be said to

have started its independent existence when Rao Pratap Singhji first raised his standard over the Alwar Fort. The State was carved out by the heroism and the statesmanship of its rulers and pays no tribute to the British Government or to any other State. The State has always been loyal and has rendered valuable military and other assistance on occasions of Imperial necessity. The Ruler enjoys the hereditary title of "Maharaj Shri Sewai" and is entitled to a salute of 17 guns inside the State and of 15 guns outside.

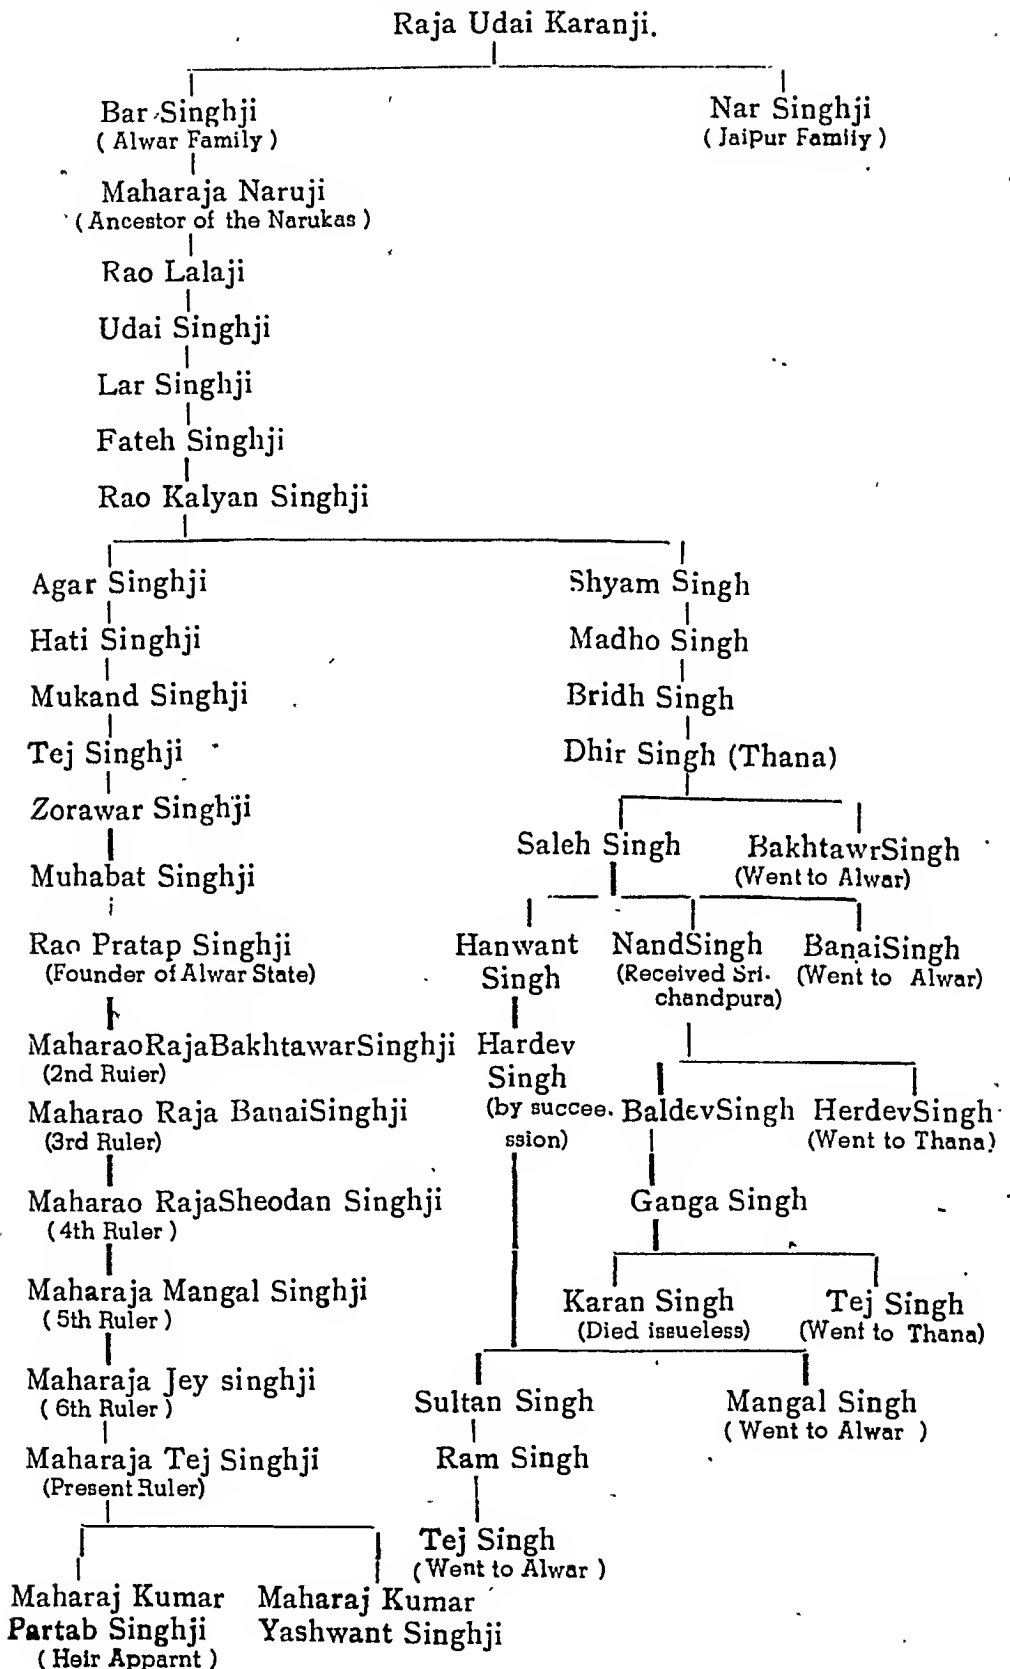

24. The State was founded in 1775, and until the Political relations opening of the 19th Century maintained somewhat loose political relations with the Moghal Court at Delhi. With the final decline of the Moghal Empire relations were opened with the East India Company resulting in the state's first and most important Treaty with East India Company. This Treaty of "Offensive and Defensive Alliance" which was concluded in 1803, principally governs the political relations of the State with the Crown.

Alwar was the first State in Rajputana to enter into permanent treaty relations with the East India Company. It was made after the famous battle of Laswari in Alwar territory when the State troops assisted Lord Lake in finally breaking the Marahata and Jat powers.

In addition to nearly a dozen Treaties and Engagements with the British Government, Extradition agreements exist between the Alwar State and several other States in Rajputana, Central India, the Punjab, Deccan and the United Provinces.

III. THE PALACE

25. The following is the genealogical table of the
Genealogical table Alwar House:—

26. The Privy Purse allotment for Palace expenditure of all kinds is entirely and comprehensively separate from the State accounts. The allotment is drawn from the State Exchequer on monthly basis and the expenses of the Palace Kitchen, Palace Gardens, Palace buildings, Palace establishment, Palace Garage, Education of Maharaj Kumars and Baijilals, Palace Power House etc. etc. are all met from the Privy Purse amount calculated at the maximum of 10% of the total revenue of the State.

The Comptroller of the Household supervises most of the Palace departments and the Palace Accounts and Finance Officer controls the expenditure under the direct supervision of His Highness. The official functions, eg., Durbars, Processions etc. are under the charge of Hakim Deodhi Khas who controls them under the supervision of the Home Minister.

IV. The War Effort.

32 "Lose your Life but not your Word"—is the
 The Past Motto of the Solar dynasty. The Alwar
 House which represents the senior line
 of this dynasty has adhered to the motto and the Rulers
 of the State have always kept the Treaty of 1803 before
 them as the beacon light of their administrative policy.
 As a matter of fact, they have never failed to place at the
 disposal of His Majesty the King Emperor and his Govern-
 ment all the resources whenever contingency has arisen.

Alwar's attitude towards the interests of the Imperial
 Government has always been one of ready response.
 The State abolished its Post Offices and joined the Postal
 Unity; it abolished all its old institutions for manufacturing
 salt and saltpetre; it gave land free for all railways and
 was foremost in Rajputana to adopt the Imperial
 Coinage and suspend its own Sovereign rights of main-
 taining a mint and to form Imperial Service Troops.

From 1888 the inauguration year of Imperial Service
 Troops to the year 1929 the State has spent over 2 Crores
 (20 Millions) on the maintenance of these Troops.
 Leaving aside one or two States no other State in India
 has spent the same proportion of its revenue on Imperial
 Service Troops as Alwar has done.

The Alwar Troops have been on active service in
 nearly every important campaign- France, Egypt, Palestine
 China etc. etc.

33. Reviewing the present Century, in August 1900
 The Present a detachment of Infantry, was sent over-
 seas to the China War. On the outbreak
 of the Great War in 1914 the Alwar Imperial Service
 Infantry-Jey Peltan and one Squadron of Mangal Lancers
 proceeded on active service. When hostilities with

Afghanistan broke out in May 1919 the Alwar State Forces proceeded to the North West Frontier.

And, immediately after the commencement of the present world War in 1939, His Highness with the characteristic tradition of loyalty of his Dynasty and his House placed the resources of his State, his personal services and the State Forces entirely at the disposal of His Majesty the King Emperor and the British Government. A full and upto-date Infantry Battalion-the Alwar Jey Paltan-with adequate arrangements for reinforcement was sent to serve the cause of the Allies.

The State also provided personnel for one section complete with 30 vehicles at a cost of Rs. 1,78,990 to the 59 Rajputana G. P. T. Company which was raised in Alwar along with R. I. A. S. C. as an Indian Army Unit. The 52 Alwar Garrison Coy. of 241 strong was raised and organised by the State. The 73 G. P. T. Coy., R. I. A. S. C. was also raised and trained in Alwar Mangal Lancers lines till it left for service in the far East. A contingent of 150 men of Labour Corps was despatched to Assam to work on the Burma Road.

34. In the matter of recruitment the State since the outbreak of the war supplied over 11,000 recruits to the different units of the Indian army in addition to 2000 men for its own State Forces, and thus has reached a mark over 13,000 recruits. Alwar supplied over 12,000 recruits and stood first in recruiting in Rajputana during the Great War of 1914-1918. Over 4500 men from Alwar State have been serving over-seas and some 400 of them were taken prisoners of War. The State presented two Fighter Air Crafts named Alwar I and II to His Majesty's Air Forces at the cost of Rs. 1,40,000.

Recruitment and
Contributions

The Central War Purposes Committee collected an amount of 6,68,000/- for the Alwar State War Purposes Fund out of which contributions were made from time to time for various purposes to H. E. the Viceroy's War Purposes Fund. The State has invested nearly 60 lacs in Defence & Government loans during the War period.

The State also contributed Rs.15,000 to the Lord Mayor of London's Air Relief Fund, Rs 10,000 to St. Dunstan's Fund for those blinded and earmarked Rs. 40,000/- for disabled Indian Soldiers, Rs. 30,000 for relief for the dependants of those killed in action and Rs. 30,000 for Indian Forces Medical Ambulance Fund. Several other donations and contributions have also been made recently.

CHAPTER II

ADMINISTRATION

1. The Alwar State, as it exists today, is the result of gradual consolidation, improvement, reorganisation and reforms introduced by successive Rulers.

His Highness Shri Sewai Maharaj Sir Tej Singhji Dev K. C. S. I. is the present Ruler and Wazir-ud-Dowlah, R. B. Sir Seray Mal Bapna Kt. C. I. E., the Prime Minister.

For administrative purposes the State has been divided into 10 Nizamats. There are 23 principal towns and 1858 villages which are distributed over the 10 Nizamats.

The Administration is conducted by His Highness with the assistance of an Executive Council of which he is the President and the Prime Minister, the Vice-President. The Minister-in-Waiting, the Army Minister, the Home Minister and the Revenue Minister are its members. In this Council vests the executive authority of the State and its orders are the orders of Alwar Government. The final executive authority, however, rests in His Highness Shri Sewai Maharaj Dev.

In addition to the Executive Council there is a Consultative Council. It does not hold regular sittings, as the Executive Council does twice a week, but is summoned by His Highness as and when occasion demands.

2. The different departments of the State are at Ministerial portfolios present allocated to Ministerial portfolios as given below:—

1. *Prime Minister*:—Accounts and the Finance Department, Government Offices and Secretariat, the Judicial Department, the Police Department, the

Public Works Department, the Zenana Hospital and the Development Department.

2. *Minister-in-Waiting*:— Education, Law Department, Guest House, Forest Department and Garage.
3. *Army Minister*:— Army, Akhet & Feelkhana, Veterinary & Cattle Breeding, Customs & Excise, Tawela, Municipal Boards and Committees.
4. *Home Minister*:— Daulatkhana, Deodhi Khas, Jagir, Medical, Punnya & Muafiyat, Price Control, Tosekhana, Museum, State Press, Central Prison, Central Records and Treasury.
5. *Revenue Minister*:—Revenue Department, Gardens, Agriculture, Nazul and Co-operative Societies.

Judiciary 3. The Judiciary of the State is almost separate from the Executive. The High Court is the highest Judicial Tribunal in the State. Appeals from the High Court, under specified conditions, lie only to His Highness who is the Fountain Head of Justice. In the work of dispensation of Justice to his people His Highness is assisted by the Judicial Committee.

Municipalities 4. The big towns in the State have their own Municipalities. The Alwar Municipal Board has 24 members, 20 of whom are elected on the joint electorate system. The elected majority chooses its own Vice-President and, as recently announced, will, in future also elect its President.

Advancement and progress 5. The Progress and Betterment of the People and the Development of the Resources of the State are the chief concern of His Highness and his Government.

The principal occupation of the people is agriculture. Nearly 90% of them live in villages. The ultimate object of His Highness' Government is to see that this population becomes and perpetually remains fully equipped and self-sufficient in every way-Intellectually Physically, Economically and Socially. The Medical, Education, Public Works, Cooperative, Agriculture, Baghat, Veterinary and the Cattle Breeding Departments are the principal avenues through which the activities and efforts of the Government flow to achieve the above object.

The Mines, Forest, Commerce and Industries and Development Department are, on the other hand, the main channels employed for tapping natural resources, raising standard of life and helping economic advancement.

The details of the progress made by these departments in the direction of their target are available in the several chapters of the Administration Report of the State. It may, however, be said that the State has set its foot and is already marching on the high road to progress and development.

One Degree College, one Sanskrit College, 4 High Schools, over 200 Primary and Middle Schools, 21 Girls' Schools and 100 Chatsals and Makhtabs are daily imparting education to nearly 20 thousand boys and girls.

3 Hospitals, two, for males and one for females and 19 dispensaries assisted by X-ray, Pathological, Anti-Rabic, Leprosy and Tuberculosis Sections are administering medicine and relief to nearly 3 lac in-door and out door patients every year.

The P. W. D. maintains 186 miles of metalled, 392 miles of motorable unmetalled and nearly 1000 miles of village cart roads for the sake of public utility. It also

maintains and looks after the College, School, Court and Hospital buildings and Irrigation, Electricity and Telephone systems which are meant to serve the people of the State.

The Cooperative Department, with the help of the Central Cooperative Bank serves nearly 311 Societies and Stores of different kinds and is infusing in the village population the spirit and strength of self-reliance and co-operation.

The Cattle Breeding Farm and the Veterinary Department are looking after the Cattle wealth of the State which consists of 11, lac heads. The two main breeds the 'Mewati' and the 'Rath' are of high and excellent type and have been recognised as such at the All India Cattle Shows.

The Agriculture and the Baghat Departments are engaged in bringing home to the agriculturist the benefits of improved seed, manure and implements and making them realise the value of growing vegetables and fruits.

The efforts of the various departments wedded to the tapping and development of the natural resources of the State have been very successful. The Textile, Porcelain, Kattha, Lac, Paints and Soda Ash Works and Factories are in the offing. Administrative sanction has been accorded; building operations are speeding up and the requisite machinery has in some cases been received and in others expected in the near future.

In addition to these big concerns, quite a large number of small industries as well as Cottage and Home Industries have sprung up during the last few years and are working satisfactorily.

6. There is no 'Begar' (Forced Labour) in the State, the system having been abolished long ago. Its abolition created a healthy atmosphere. Officers and officials, whether in the towns or in the villages of the State, under State regulations are strictly prohibited from taking 'Begar' in any form whatsoever.

7. In the year 1939 Public Services of the State Security of Services were put on Time Scale basis. History Sheets and Service Books were prepared. The various sections of the Services including the Ministers were put in different cadres, scales and divisions. This reorganisation has created a sense of security of tenure and, barring specific conditions of default, every one receives increments and promotions according to the scheduled Time Scales. The system has worked very successfully and its effect on the general sense of security is very beneficial.

8. Realising the need for concerted planning and Reconstruction - coordinated efforts on the part of different departments so as to secure:-

Firstly, Progress and Betterment of the People and

Secondly, Full Development of Natural Resources.

His Highness was pleased to appoint 2 Committees:-

(1) The Postwar Reconstruction & Planning Committee, and

(2) The Agriculture and Irrigation Committee.

These Committees have placed their reports before His Highness' Government. A very wide field has been surveyed and no avenue which could in any way contribute towards the progress of the people and the State has been ignored. Experts and Engineers have started probing potentialities in various directions. After preliminary investigations have been completed and the working ground is prepared His Highness' Government expect to launch a full-fledged programme.

CHAPTER III

REVENUE

I. LAND REVENUE

Minister-in-charge

Revenue Minister—Rai Bahadur Miyan Lal Singh

Head of Department

Collector Alwar—Kr. Khurshaid Ali Khan B. A. LLB.

Collector Rajgarh—L. Mool Chand Badhwar B. A.

1. The distribution of the land revenue areas under
Foreword Mughal rule is not fully known but from authentic accounts it appears that the present area of the State was in those times included in the Alwar, Tijara, Narnaul and Rewari Sirkars and Delhi and Agra Subas of the Mughal Empire.

The annual land revenue of this area, as pointed out in Q'Dwyer's settlement report, was at that time somewhere between 12 and 14 lacs. With the disruption of the Mughal Empire, Akbar's land revenue system fell into disregard, and land revenue was realized mostly in kind, which system was in force at the time of the foundation of the State and survived until 1838, when Maharao Raja Viney Singhji was ruling.

The collection of land revenue in kind proved to be a matter of great difficulty and led to speculation, fraud and extortion. The Muslim Diwans of the Maharao Raja consequently introduced a system of periodical fixed revenue, realized on a contract system. This system continued till 1858 and although it was an improvement on the previous method of assessment, it did not work well and caused State land to fall out of cultivation.

2. A summary settlement was, therefore considered
 Settlements necessary by the Government of India under whose supervision the State was at the time being administered. It was introduced by Captain Impey, the Political Agent, in February 1859. The assessment of each village was based on calculation of the last 10 years, modified by other considerations, such as, local conditions, capacity to pay etc..

Within three years the success of the settlement became apparent and a further settlement which was to last for a definite period of 10 years was introduced by Capt. Impey in 1862. In assessing the villages the same principles as those adopted in the first summary settlement were followed but the assessment was raised by 20%.

A third summary settlement was carried out by Major Powlett in 1872 which lasted for a period of 4 years according to which the assessment was further increased by 9%.

This was followed by the first regular settlement again carried out by Major Powlett, when a new assessment with a 6% increase was introduced from the Kharif of 1876. All khalsa lands were measured, lands were classified, rents and rates were checked and khasras, were completed. The results of the proceedings were entered in the village assessment papers. The assessment was sanctioned for a term of 16 years but actually continued for 24 years in consideration of the abnormal loss sustained by Zamindars as a result of the famine of 1877-78 and of a succession of lean years.

Thereafter two more regular settlements were done at the intervals of about 20 years. The table below summarises the various settlements;

No.	Settlement	Settlement Officer	Year	Amount	Deviation	Rate per Bigla
1	Mughal Settlement	Raja Todar-mal	1566	14,00,000		
2	3 yrs summary settlement	Captain Impey	1859	14,65,615	+5%	
3	10 years summary settlement	Captain Impey	1862	17,53,425	+20%	
4	4 yrs summary settlement	Major Powlett	1872	18,89,002	+9%	
5	1st Regular Settlement	Major Powlett	1876	20,11,128	+6%	1/8/-
6	2nd Regular Settlement	Col. O' Dwyer	1900	22,73,486	+10%	1/10/-
7	3rd Regular Settlement	Pt. N. L. Tikkoo	1923	29,39,112	+30%	2 2/21
8	Revision of assessment of 3rd Regular Settlement	Mr. F. V. Wylie	1935	23,40,066	-20%	1/11/2

Some of the land included in the Mughal settlement was subsequently bestowed as Jagir or Muafi grants by successive rulers of the State. The total revenue of such grants is estimated at present at about four lacs.

3. The agricultural classes in the State are spread over Agricultural Tribes 1465½ Khalsa villages as detailed in the following statement:—

No.	Principal tribes	Religion	Number of Villages	Principal residential areas
1	Rajputs	Hindu	214 1/2	Bansur, Mandawar, Thanagazi, Behror, and Lachhmangarh
2	Brahmans	"	116	Rajgarh, Thanagazi, Alwar, Lachhmangarh
3	Jats	"	121	Lachhmangarh, Kishangarh
4	Ahirs	"	182	Mandawar and Alwar
5	Minas	"	105	Behror, Mandawar, Tijara, Kishangarh and Bansur
6	Gujars	"	141	Thanagazi, Lachhmangarh, Rajgarh and Alwar
7	Miscellaneous i.e. Malies etc.	"	48	Bansur, Thanagazi, Alwar and Tijara (Hilly tracts)
8	Rajputs (converted)	Mohomedan	15	In various parts of the State
9	Saiyads	"	6	Mandawar and Kishangarh
10	Khanzadas	"	30	Alwar and Kishangarh
11	Meos	"	482	Ramgarh, Kishangarh and Tijara
12	Miscellaneous	"	5	Alwar, Ramgarh, Kishangarh, Tijara and Lachhmangarh

The residential distribution is even now practically the same as it was in the beginning of the present century.

4, The tenure rights of the agriculturists may best be described in the words of the second regular settlement report of Col. O' Dwyer:—

"These tribes have been settled on the land from times immemorial, long before the present State was founded. Their rights in the soil are not the creation of any formal grant by any ruler but the growth of long centuries of uninterrupted occupation sanctioned by prescription and immemorial usage. This status of Zamindars has always been recognised in Alwar where the State, though asserting its own sovereign right as superior owner has always admitted a subordinate proprietary or Biswedari right in the village community and its component members, whereby each member or unit is entitled to occupy, and is protected in the occupation of, land in his possession as long as he cultivates it and pays the State demand. The right passes on to his children or heirs by the ordinary custom of succession and can be alienated by sale, gift, or mortgage within certain limits."

Although the biswedari rights of zamindars in Khalsa villages were recognised by the State, in several cases of new Jagir and Muafi grants made since the year 1900, they had been extinguished. The rights have since been restored to the original biswedars, it being held that the grantees are entitled to the assignment of land revenue only.

5. Besides the biswedars or owners there is another class of persons whose rights in the land are also recognised. They are the occupancy tenants. The general principle governing the recognition of these rights is that if a tenant has continuously occupied the

Tenure Rights
(Occupancy)

land for 12 years and has paid a fixed rent, or rent at the owner's rate without entering into any written agreement (pattas or Kabuliyats) he is considered to have earned the right of permanent occupancy, subject to certain conditions.

6. Before 1933 the State was divided into 10 Nizamats
 Constitution each in charge of a Nazim without any Naib Nazim to assist him in the work of the Nizamat, except in Alwar proper where there were 2 Naib Nazims.

The revenue administration of the State was reorganised in 1933 when several reforms were introduced. For criminal and revenue administration, the State was divided into 2 districts - Northern and Southern-known as the Alwar and Rajgarh districts. Each of these districts consists of 5 Nizamats and is in charge of a District Officer who is the chief executive officer of the district and exercises the powers of a Collector on the revenue side and of a District Magistrate on the criminal side. They are under the direct control of the Revenue Minister.

The Nazim is the chief executive officer in the Nizamat and is assisted by a Naib Nazim. He is vested with the powers of Assistant Collector 1st grade on the revenue side and Magistrate 2nd class (except in two Nizamats where he exercises powers of a first class Magistrate) on the criminal side. Each of the Naib Nazims exercises the powers of Assistant Collector 2nd grade and is a Magistrate of the 3rd class.

7. The efficiency of the revenue administration hinges
 Land Revenue Staff upon the thoroughness of crop inspections and preparation of annual papers. For this purpose there exists land records staff of office Qanungos, field Qanungos and Patwaris. District Qanungo is the head of the land revenue staff. He is responsible to the

Collector so far as the Land records staff of the District is concerned. The land records staff consists of:-

Name of District	Sadar Qanungo	Office Qanungo	Field Qanungo	Patwaries	Total
Alwar Dist.	1	5	15	172	193
Rajgarh "	1	5	15	167	188

8. The total number of villages and their tenure in each Nizamat are detailed in the following statement:

Name of Nizamat	Khalsa Villages	Resumed Forest Villages	Jagir Villages	Muafi Villages	Istamarar Villages	Total

9. The following table shows the total cultivated and uncultivated area in the State:-

Cultivated & uncultivated area		Population	CULTIVATED		UNCULTIVATED

Grand Total		814142	1469511	1454235	1019231	1006294

From the above statement it is evident that the total cultivated area decreased from 1469511 to 1454235 while the uncultivated area decreased from 1019231 to 1006294. The decrease in the cultivated and uncultivated area is due to transfer of villages from Khalsa to Jagir and to Forest.

10. The following table shows the total area reclaimed this year as compared to the year 1943-44:—

Reclamation	1943-44 Area reclaimed	1944-45 Area reclaimed

The result is as under:—

Total area sown	16,72,820 Bighas
Total area matured	16,09,857 "
Total area failed	62,963 "

The above figures when compared with the previous year give the following result:—

	1943-44	1944-45	Increase	Decrease
Total area sown	17,05,445	16,72,820	32,625
Total area matured	16,11,521	17,09,857	1,664
Total area failed	93,924	62,963	961

12. The total rainfall registered at the various rain-Weather and Crop. gauge stations during the year under report is given below:—

Alwar District		Inches.	Cents	Rajgarh District		Inches.	Cents.
1.	Alwar	20.90		1.	Rajgarh	24.01	
2.	Kishengarh	25.36		2.	Ramgarh	19.47

4.	Behror	17.13		4.	Thanaghazi	19.49	
5.	Tijara	19.17		5.	Bansur	19.76	

The rains were copious this year and the yield of the crops quite satisfactory. No damages were caused to the standing crops due to causes beyond human control, e. g., hailstorm or locusts' invasion etc.

13. The following table shows the average prices of Prices of foodgrains foodgrains per rupee during the year under report :—

The high prices of foodstuffs proved useful to the peasantry. The financial condition of the peasantry steadily revived and the debts incurred in the years of scarcity were wiped off. Most of the lands mortgaged during the past years were redeemed. The rural indebtedness has considerably decreased.

14. Relations between the landlords and the State

Relations between— remained quite cordial. The landlords continued to help the State in the War effort. Every possible effort was rendered by them in the enlistment of recruits and in the collections made on account of National Savings Scheme.

(a) landlords and State,
(b) tenants and landlords

The relations between the landlords and tenants also remained quite happy and cordial during the year under report. They continued to assist each other in discharging their duties towards State. The tenants remained loyal to the landlords as well as to the State. Except for few individual cases of ejectment, there was no general controversy between them on any point which could have necessitated the State intervention. The tenants continued to lead a peaceful life and remained aloof from all subversive activities.

15. The total area of agricultural land alienated by mortgage or sale during the year was 8,031 as against 11,962 of the previous year. Out of this area, 7647 bighas were transferred to agriculturists and 384 bighas were transferred to non-agriculturists as shown in the statement below:—

17. The land revenue accounts are in accordance with the Agricultural year, which begins on the 1st of October. The accounts, therefore should be understood to relate to Kharif 1943 and Rabi 1944.

The total current demand on account of fixed Land Revenue for the year was Rs. 21,99,085/- out of which Rs. 400/- only were suspended and Rs. 4,241/- were remitted during the year, leaving a balance of Rs. 21,94,444/- as net demand to be collected. Total collections for the two harvests amounted to Rs. 21,93,517/- leaving a balance of Rs. 927/- only. This puts the percentage of collections at 99.95%

In addition to the collection of land revenue for the current year a sum of Rs. 56,946/- was also collected from the arrears of previous years.

18. In addition to the fixed land revenue certain other kinds of revenue from land were also recovered. The total collection of fluctuating and other land revenue during the year under report amounted to Rs. 1,82,579/- on account of the

current demand and Rs. 8,438/- out of the arrears. Thus the total collections amounted to Rs. 1,91,017/-. The balance that remained uncollected at the close of the year amounted to Rs. 9,124/- on account of the current year and Rs. 12,321/- on account of arrears of past years.

19. The number of coercive processes employed during the year was:—

	No. of processes	Fee realized
Alwar District	222	283/12/-
Rajgarh District	222	233/ 4/-
Total	444	517/-

20. During the year under report 1020 documents were registered in the Alwar District and 511 in the Rajgarh District. The fees realised in the two Districts amounted to Rs. 7,725/- and Rs. 2,511/- respectively.

21. No boundary cases were decided during the year under report. Two cases with the Jaipur State were instituted during the year. The total number of cases pending with other States at the end of the year was as under:—

With the Jaipur State	76
With the Bharatpur State	23
With the Nabha State	1
With the Patiala State	1

26. The various measures adopted last year to Grow more food campaign accelerate "Grow more Food Campaign" were pushed further during the year under report.

The policy of discouraging the cultivation of non-essential food grains and of substituting essential foodgrains in place of them was confirmed. The Village Committees and field staff carried out the propaganda as usual. Taccavi loans were freely distributed and every possible assistance was given to the cultivators to reclaim culturable waste lands.

Besides the above measures, His Highness' Govt. appointed an Irrigation Committee consisting of three officers of the State to devise ways and means to develop irrigation and there by to accelerate 'Grow more food campaign.' The committee made a minute and detailed survey of the whole State and concluded their labours after several months hard work. It is hoped that the means of irrigation in the State will be fully developed and thereby the scheme of "Grow More Food Campaign" will be further accelerated.

27. In order to assist in the war effort as well as to check inflation, His Highness' Govt National Savings Scheme agreed to implement the National Savings Scheme in the Alwar State. The task of the working out of the scheme was entrusted to the Revenue Department. Before enforcing the scheme, the Collectors convened a conference of their subordinate Revenue Officers and explained to them the aims and objects of the scheme. The subordinate revenue officers were instructed to explain to the public the advantages of the scheme and to impress upon them that there could be no better and safer method of investment of their savings than to contribute to the National Savings Scheme and to purchase National Savings Certificates.

In order that the subordinate Revenue staff might display keen interest in the working out of the scheme, they were allowed to become authorised agents and there by to have commission. At the same time it was explained to them that making collections, they should not abuse their authority and should not exercise any coercion or undue official pressure. The contributions should be quite voluntary and one should not be asked to pay more than his paying capacity.

Though the operations of the scheme had commenced in October, yet during the first three months, its progress was slow. In due course, the public became fully alive to the advantages of the scheme and in January, it was in full swing. The money came in briskly from all quarters and the total collections by the end of March amounted to Rs. 8,49,800/-

The details are as under:—

28. The Cattle Census of the State had been carried out in the year 1940. On the expiry of 5 years,, it was again carried out in January, 1945 under instructions received from the Government of India. The village Patwaris worked as enumerators while the checking was done by Field Qanungoes and Revenue Officers within their respective circles. The Collectors also checked a number of villages within their respective Districts.

The result of the Census is shown in the following table:—

II CUSTOMS & EXCISE.

CUSTOMS

Minister-in-charge

Army Minister—Major General Abdul Rehman Khan
M. B. E., O. B. I.

Head of Department

Collector of Customs & Exercise—Pt. Rup Narain B. A.

29. The right to levy customs duty was lost to Alwar by the Salt Treaty Agreement which was concluded between the Government of India and the Alwar State in 1879. The agreement was, however, revised in 1930 and the right to levy customs duty was restored to the State.

30. The Customs and Excise Collector is assisted by an Assistant Collector of Customs and an Additional Assistant. For Customs work the

whole of the State is divided into 3 circles. Each circle is under the control of an Inspector and consists of 3 Thanas and one Sub-Thana which are under the control of Sub-Inspectors and Daroghas respectively. There is also one Excise Ware-house under the charge of an Inspector.

Besides these there is a Special Customs Anti-smuggling Force of 80 Special Guards, 8 Special Head Guards and two Special Inspectors, who are posted in parties at the important Nakas in order to check smuggling of grain and dutiable goods. The number of Nakas maintained during the year was 86 manned by 110 Nakadars and 111 guards.

31. The Chief exports of the State were oil-seeds, gram, pulses, zira, cattle and ghee while the chief imports during the year under report were sugar, cloth and general merchandise.

32. Export duty on goats and sheep had to be raised on account of excessive export and abnormal rise in prices in the local markets, whereas duties on gram, jwar and arhar were reduced. The concessions for the manufacture of tents for Government were continued during the year under review.

33. The following table gives details of import and export receipts from dutiable articles:

IMPORT 1944-45		EXPORT 1944-45	
Cammodity	Amount	Cammodity	Amount
1. Khal Binola	10,953/-	1. Ghee,	5,39,489/-

17. Leather	24,305/-	17. Vegetable	48,055/-
18. Other commodities	67,521/-	18. Timber	94/-
		19. Cock, hen, eggs	2,165/-
Total	<u>6,95,731/-</u>	Total	<u>36,99,381/-</u>

The increase in Customs receipts was mainly due to a general rise in prices of commodities on which Customs duty was charged at advalorem rates and the increased export of Ghee, Cattle, Oil seeds, Gram, Zira, Rapeseed oil and Gwar. Some gram and pulses which were found surplus were also exported to other States and Provinces.

EXCISE

34. The lease of the right to manufacture Country Spirit and Power-alcohol continued in favour of Messrs Shewakshaw Edulji & Son in whose favour it was sanctioned for a period of 10 years beginning from 1st April 1943.

A patent still was put up by the contractors and Country Spirit was locally distilled from Gur for consumption in the State. A small quantity of surplus spirit was exported to Bharatpur State and Bombay.

35. The Excise revenue of the State is derived mainly from license fees and excise duties levied on liquor, opium and hemp drugs, salt treaty receipts and a share in the Match duty received from the Government of India. The figures of Excise and liquor

revenue during the three successive years are given under:-

	1942-43	1943-44	1944-45
1. Liquor	62,683/-	60,888/-	61,076/-
2. Opium & hemp drugs	39,109/-	47,718/-	80,125/-
Total	1,01,792/-	1,08,606/-	1,41,201/-

36. The consumption of Foreign and Country spirit during the year under report is given below as compared to the two previous years:—

1942-43	1943-44	1944-45
L. P. Gls.	L. P. Gls.	L. P. Gls.
10,415.0	11,737.0	19,215.96

There was an increase of about 7,478.96 gallons in the consumption of country spirit as compared with the previous year, the apparent reason being the high prices and difficulties of obtaining Gur which discouraged illicit distillation.

The following table gives the consumption of Opium and Hemp drugs during the last three years:...

	1942-43	1943-44	1944-45
	Srs.	Srs.	Srs.
Opium	576	1,090	1,218
Charas	37 $\frac{3}{4}$	9 $\frac{1}{2}$	—
Ganja	238 $\frac{1}{2}$	365	420
Poppy	60	71 $\frac{1}{2}$	15
Bhang	877	1,110	985

The contract for the sale of Hemp drugs was re-auctioned for the year 1944-45, for Rs. 15,000/-.

37. Opium continued to be supplied from the Indore Ware-house as heretofore. No Charas could be obtained as the supply from Central Asia had altogether stopped. This naturally led to increased consumption of Ganja.

38. There were five cases of illicit distillation. Three
 Illicit distillation. were decided and two are still under trial.

39. The number of retail liquor and opium and
 Retail shops and Prices. hemp drugs shops during the year under
 report was 82 and 56 respectively.

The retail prices of liquor remained between Rs. 1/8/-
 and Rs. 2/8/- per bottle of L. P. gallons strength. The
 price of the empty bottle was raised from -/8/- to -/10/- per
 bottle.

40. At the instance of the Government of India the
 Tobacco Excise. British India Tobacco Excise Duty Act
 and Rules were adopted in the State with necessary
 modifications with effect from the 15th of April, 1943.

The work of assessment and collection of Excise duty
 of Tobacco was entrusted to the existing Customs and
 Excise staff. A Special Inspector was appointed to super-
 vise the general working of the Scheme under the direc-
 tion of the Collector Customs and Excise. A scheme for
 a separate staff has however been sanctioned.

III FOREST

Minister-in-charge

Revenue Minister—R. B. Miyan Lal Singh 16. 11. 43. to

6. 8. 1944

Minister-in-Waiting—R. B. Th. Chain Singh from 7. 8. 44

Head of Department

Forest Officer—Pt. Ram Pratap M. Sc.

42. The principle object with which the forests are administered is *The public benefit*. For the preservation of climatic conditions, for improving the general well-being of the country, for meeting the requirements of the farmer, for satisfying local needs at non-competitive rates, for affording grazing facilities, for preserving the soil from erosion and for exploiting the chemical and industrial potentialities of the forests, the State has not only to control and supervise the State forests but has also to control the growth and maintenance of private forests.

43. The State forests have been classified under
Area & classification: three heads, viz.

(1.) Reserve forests, i. e., forests which are State property and free from all rights of other persons.

(2.) Protected forests, i. e., forests wherein the villagers have certain rights with regard to grazing and removal of grass but where the tree growth has been protected

(3.) Private forests, i. e., Zemindari, Jagir and Muafi forests.

According to the latest figures the reserve forest area in the State measures about 2,28,852 acres while the

year. Of these 22 were tried judicially and the rest disposed of departmentally.

17 cases of the forest fires were reported of which 6 occurred in Rajgarh Range, 7 in Seriska Range and 4 in the Alwar Range. Only minor damage was caused.

47. The income of the Department during the year under report is shown in the following table:—

IV MINES DEPARTMENT

Minister-in-charge

Prime Minister—R. B. Sir Seraymal Bapna Kt C. I. E.
B A., B.Sc., LL.B.

Head of Department

Mines Officer—Lala Gangaswarup F. G. M. S. M. M. G. I.

48. The earliest geological survey of the Alwar State was done in 1824. Eminent geologists and Officers of the Government of India e.g. Major Kedal, Mr. Hacket, Mr. Anderson, Mr. Harron etc. have since then probed mineral potentialities of the State. But Mr. Hacket's report still continues to be the chief authority on the geology of the State.

All the hill ranges, ridges, and valleys in the State are covered with thick tertiary formations. The hills maintain

their regularity and the rocks exposed in these hills are of considerable variety. They generally belong to one series of rocks known as the Aravali range.

49. The chief metallic minerals found in the State are the ores of iron and copper. There are also small deposits of lead, silver and nickel. Mineral products. Iron smelting was once widely practised. The smelting was given up on account of foreign competition and cheaper imports. The question of re-opening these deposits is engaging the attention of the State.

Copper was mined and smelted in ancient times in several places in the State. Considerable amount of ore was extracted from the deposits. The State is tackling seriously the question of copper mining and smelting on modern scientific lines, specially as the result of chemical examination of the copper ore is very encouraging.

The following minerals are found in the State:-

1. Marble 2. Iron Ore 3. Copper Ore 4. Galnea
5. Mica 6. Asbestos 7. Kaolin 8. Rock-Crystal
9. Steatite 10. Soda 11. Glass Quartz 12. Mineral Waters
13. Lime Stone 14. Slates 15. Flagstones
16. Kankar 17. Berla Quartzites 18. Red Ochre
19. Yellow Ochre 20. Felspar 21. Flourspar
22. Barytes.

50. The table below shows the annual approximate output in tons of the more important minerals as compared with the tonnage of the previous year:—

No.	Minerals	1943-44	1944-45
1	Limestone	2,179	686½
2	Hardened shales	1,668½	1,149½
3	Barytes	598	990½
4	Marble	811	896½
5	Felspar	113½	30
6	Soapstone	...	134½
7	Slates	...	138

51. The following statement shows the number of leases, licenses and certificates of approval granted during the year under report as compared with the previous year:—

No.	Particulars	1943-44	1944-45
1	Mining leases	136 (with 262 working faces)	142 (with 268 working faces)
2	Prospecting licenses	52	35
3	Exploring licenses	15	9
4	Certificates of approval	46	32

The department continued to devote special attention to mineral exploration and proper upkeep of the mines and quarries and to investigations connected with the development of mineral industries. The quarries and mines worked satisfactorily and necessary precautions were taken to guard them against irregular methods of working.

The income of the department for the year amounted to Rs. 1,01,733/2/9 as against the expenditure of Rs. 8,356/12/6.

VI NAZOOOL

Minister-in-charge

Revenue Minister—Rai Bahadur Miyan Lal Singh.

Head of Department

Nazool Officer—Lala Bhonrey Lal.

56. The main functions of the Nazool Department

Functions and Jurisdiction. are:—

- 1 Maintenance of proper record of Nazool property.
- 2 Detection of encroachments on State property.
- 3 Sale of State land.
- 4 Recovery of rent for State lands and buildings.

The jurisdiction of the department extends over the whole of the State. In the capital, the control of all lands recorded as State property and such buildings as escheat to the State, vests in the Nazool Department. In the districts, Nazool jurisdiction exists in only a few towns where the Nazool property is under the direct supervision of the Nazims, subject to the general control of the Nazool Department. In villages which are not subject to the Nazool rules, the department controls only such heir-less immovable property as escheats to the State under the rules in force.

57. At the time of the first and the second Regular Settlement and Survey Land Revenue settlements the town of Alwar was surveyed and records were prepared showing rights and possessions of land owners, house owners and of the State. These records are maintained by the Nazool department and are open to inspection by the public.

A fresh survey for the city of Alwar was commenced in 1941 and it is still in progress. Bas Khora was surveyed in the year 1941-42, Mohalla Teejki, Chah Ustajwala and Parao in 1942-43 and the Family Lines of Jey Paltan in 1943-44. During the year under report Munshi Bazar, Mohalla Baderia Pari, Mohalla Kolipara and Mohalla Outside Hazuri Gate were surveyed.

As there was no copy of the 16 years settlement maps which was very essential for the resurvey of Alwar City, copies of 9 maps of 16 years settlement and a copy of one map of 20 years settlement were prepared during the year under report.

58. Measures have been taken to check and bring up-to-date the district registers of Nazool property known as "Bahi Khalsa". "Bahi Khalsa" of Alwar and Rajgarh were checked and after verification new ones were prepared.

59. A comparative chart of 3 years income of the department is given below:—

Income	1942-43	1943-44	1944-45
Income from sale of lands and buildings in the Alwar City	6,279	37,825	33,102
Income from sale of lands and buildings in districts.	3,092	1,549	4,788
Income from rent of lands and buildings in the Alwar City.	2,537	2,132	1,846
Income from rent of lands and buildings in districts.	3,090	4,154	4,450
Total	14,998	45,660	44,186

60. The balance of cases which remained undisposed of during the last year was 387. 710 new cases were instituted making a total of 1,097. Out of these 659 cases were disposed of leaving a balance of 438.

CHAPTER IV FINANCE AND ACCOUNTS

Minister-in-charge

Prime Minister—R. B. Sir Seray Mal Bapna Kt.C.I.E.
B. A. B. Sc., LLB,

Head of Department

Accountant General & L Shiam Sundar Lal
Finance Secretary B. A. (Hons,)

1. The system of financial administration in the Alwar State is modelled on the system prevailing in British India. At the top of the Financial organization is the Finance Department, which is controlled by the Accountant General as ex-officio Finance Secretary and one wholtime Assistant Finance Secretary. The functions of the Finance Department range over the whole field of finance, control of revenue and expenditure, taxation, waya and means and watching of the balances and preparation of budgets. The Finance Department also scrutinizes all proposals for expenditure and has an effective control over expenditure in as-much as all new items of expenditure are thoroughly scrutinized before they are included in the Budget.

The preparation of Budgets-the main instrument of financial control-is taken up during the month of October and the work is completed by the end of February so that the State departments may have in their hands financial plan of the ensuing year well in time. In order to see that departmental officers properly execute the budget plan, progress reports of revenue and expenditure are called for and after about 6 months a revised budget is prepared with a view to adjust expenditure and revenue.

The revised estimates however do not replace the sanctioned budget estimates. They are prepared merely for the information of the Finance Department so that the trend of probable revenue and expenditure during the year may be correctly appreciated, and controlled.

2. Below the organization of the Finance Department is the Audit and Accounts department, which is controlled by the Accountant General assisted by a requisite number of Assistants. The main feature of the audit system prevailing in the State is that the expenditure being incurred is preaudited by the Accounts Office. There is only one public account in which all receipts are deposited and from which disbursements are made. This account is controlled by the Accountant General. This system enables the Accountant General to keep effective control over the expenditure not only with regard to the execution of the budget estimates, but also from the point of view of regularity of expenditure. The Accountant General in his audit functions enjoys independence to a certain degree. He has also power to report cases of flagrant disregard of canons of financial propriety.

The financial year of the State commences from 1st April. The accounts are purely on cash basis and revenue or expenditure which has not actually passed through the public account within the fiscal period from 1st April to 31st March, is booked during the next financial year. For purposes of adjustment of departmental accounts, the accounts of the year are kept open till the month of June when a final account for the year is prepared in which all transactions pertaining to that year are included.

As an accounting officer the main function of the Accountant General is to compile Monthly accounts of receipts and expenditure of the State and submit them to His Highness as well as to the Prime Minister.

3. The following statement summarises the estimated Receipts & Expenditure and actual receipts during the year 1944-45:—

	Estimates		Actuals	
	Receipts	Expenditure	Receipts	Expenditure
Opening Balance	13,35,924	...

EXPENDITURE

Revenue expenditure during the year amounted to Rs. 52,92 against the estimate of Rs 50,29. Important variations are explained below:—

No. Head	Expenditure (in thous.)		Variations (in thous.)	Remarks
	Actuals	Estimates		
1 Palaces	9,45	3,70	+5,75	Due to current year's full quota paid under head Civil list.
2 Military	10,90	11,82	-.92	Due to saving under various minor detailed heads
3 Town Improvement	.6	.60	-.54	Due to non-execution of works.
4 Other heads: (Diff. below 10).	32,51	34,17	-1,66	
	52,92	50,29	+2,63	

Expenditure during the preceeding year amounted to Rs. 40,44,513. Expenditure during this year thus exceeded the preceding year by Rs. 12, 48. The following statement explains the important variations: —

S. N.	Heads	Expenditure (in thousands)		Variations (in thousands)	Reasons.
		44-45	43-44		
1	Land Revenue	2,45	2,20	25	
2	Costoms	.95	.71	.24	Increased budget provision
3	Forest	.57	.30	.27	do
4	Palaces	9,45	5,84	3,61	Due to payment of full quota of the current year,
5	Police	3,01	2,57	.44	Increased budget provision.
6	Education	3,67	3,19	.48	do
7	Medical	3,01	2,71	.30	do
8	Bijli	.77	.07	.70	Due to estimates having been passed on commercial basis last year.
9	P. W. D.	5,87	3,69	2,18	Increased budget provision.
10	C. B. Farm	.52	.28	.14	do
11	Garage	.45	.24	.21	do
12	Feelkhana	.24	.11	.13	Due to high cost of fodder
13	Army	10,90	9,63	1,27	Increased budget provision
14	Other Heads:				
(Diff. below 10)		11,16	8,90	2,26	
		52,92	40,44	12,48	

It will be observed that while Revenue receipts during the year exceeded the receipts during the preceding year by Rs 24,21, the expenditure exceeded last year's expenditure only by Rs. 12, 48 inspite of the War which entailed an extra expenditure.

As already explained the rise in receipts was largely due to the increased income from collection of arrears and wind-fall under Customs which resulted from the increased tempo of trade and commerce and rise in prices of agricultural produce and other commodities due to war, the expenditure was kept down by enforcing rigid economy alround. Revenue receipts during the year thus exceeded expenditure by Rs. 36, 72, 571.

4. The position under the heads was as follows:—

Debt, Advances.
Deposits and Remittances.

	Heads	Receipts	Payments	Variations	Reasons.
1	Debt Heads	24, 128	21, 151	2, 977	Due to less refund
2	Deposits	15, 14, 397	12, 60, 482	2, 53, 915	do
3	Advances	4, 63, 791	4, 93, 791	—30, 000	Due to non-adjustment of advance accounts during the year.
4	Remittance	46, 07, 900	46, 11, 290	—3, 390	Due to non-payment of certain R.T.R's during the year.
		66,10,216	63,86,714	2,23,502	

The year thus ended with a balance of Rs. 52,31,997/- as follows:—

Opening Balance	13, 35, 924
Revenue Surplus	36, 72, 571
Net surplus	50, 08, 495
Plus saving of less payments under other heads.	2, 23, 502
Closing balance	52, 31, 997

5. The year closed with a balance of assets amounting ^{Assets & Liabilities} to Rs.71,51,357 against the opening balance of Rs. 31,46,598. Important differences are explained below;—

No.	Heads	Balances		Differences (in thousands)	Reasons.
		Closing	Opening		
1	Govt. of India Defence Bonds.	10,06	40,06	30,00	Due to surplus amount investment in Govt. securities
2	Post Office National certificates.	.20	5,14	4,94	Purchase of National saving certificates.
3	Fixed Deposit Receipts.	5 20	8,20	3,00	Due to investment in Fixed Deposit Receipts
4	Advances	2,65	2,95	.30	
5	Cash Balance	13,36	15,16	1,80	Due to receipts being in excess of expenditure
		31,47	71,51	40,04	

In regard to liabilities the year closed with a balance of Rs. 18,93,939 against the opening balance of Rs. 15,63,891. The important reasons are explained below:—

No.	Heads	Balances (in thousands)		Differences (in thousands)	Reasons
		Closing	Opening		
1	Fixed Deposits	1,40	2,35	.95	Due to Yashwantgarh fixed deposit 1,00,000 Deduct Khora 5,000
2	Departmental deposits.	6,64	7,90	1,26	Due to less payments.
3	Municipal deposits.	.50	.69	.19	„
4	Shri Baijilal's Marriage Fund.	.09	.22	.13	To be transferred to Prime Minister's account with Imperial Bank.
5	Other heads.	7,01	7,78	.77	
		15,64	18,94	3,30	

A detailed statement of Assets and liabilities is given in Appendix B. From this statement it would appear that the financial position of the State is far better in comparison to other years in the past. The clearance of entire loan has already been made.

The following is a general summary of the financial position of the State at the close of the year as compared with the previous year:-

Assets	1943-44	Assets.	1944-45	Total
	31,46,598	Investments	53,40,250	
		Cash balance	15,16,292	68,56,542
Liabilities	1943-44	Liabilities	1944-45	Total
Internal loan	3,80,000	Internal Loan	3,80,000	
Other liabilities	11,83,891	Other liabilities	15,13,939	18,93,939
	<u>15,63,891</u>			
Net Assets	15,82,707	Net Assets.		49,62,603

Besides, the one internal loan of Rs. 3, 80,000 the main liability of the State arising out of the deposits of Government or private funds in the State Treasury are as follows:-

1. Government Provident Fund	98,082
2. Fixed Deposit Receipts	2,35,444
3. Other Deposits including departmental, Municipal and Shri Baijilal's Marriage fund	<u>8,80,787</u>
	12,14,313

A policy of separating these balances in order to clear these liabilities had been adopted. An amount equivalent to the balances under these heads has been invested separately in either Government securities or fixed deposits with Imperial Bank of India Alwar.

6. In taking stock of the financial position of an administration three factors generally require attention. The first is the capacity of the revenue to meet demands on it for running the administration. The second is the size of its debt

and the third is the existence of general Reserves to fall back upon in times of necessity. The remarks given below summarise the position of the state in the light of the factors enumerated above.

Revenue Realized—The revenue realized during the year far exceeded the actual expenditure. This was undoubtedly a very happy feature and for the first time in the financial history of Alwar, total receipts excluding suspense heads have touched the figure of about 90 lacs against total expenditure of Rs. 53 lacs. It has, however, to be admitted that this phenomenal rise in revenue is purely of an ephemeral nature. Permanent sources of revenue remained rather inelastic and thus we cannot count this increase in revenue for all time to come.

Debt—With regard to the size of debt and other liabilities it may be mentioned that the state is completely free after nearly about 30 years from external loan. The only items under liabilities, which now remain are balances under deposit, G. P. F. etc. Against these liabilities amounting to Rs. 12,14,211 the State possessed liquid assets amounting to Rs. 71,51,486 that is to say the amount under assets exceed the balances under liabilities by Rs. 52, 57, 794.

Reserve—With regard to creation of reserves on which to fall back in times of necessity a beginning has already been made by pushing through the policy of separating and investing in Govt. Securities or otherwise an equivalent to the liabilities against the State. During the year the State has invested Rs. 37, 94, 391 in purchasing Govt. Securities against the balance of Rs. 15, 45, 859. The total investment thus comes to Rs 53, 40, 250. The State has also made a good profit in making their purchases at the lower rate against their face value. These securities are bearing interest at 3% and the income

from interest on the investments comes to Rs. 1, 32, 000 per annum or 11 thousand per month.

7. With a view to improve the efficiency of Accounts Office, the Office Manual has been brought into force and two candidates have been sent to British India for Training in Accounts. A candidate has also been selected for training in Finance.

8. In order to ensure that the accounts of the initial expenditure, incurred by the departments, are correctly maintained by departmental Officers, the Accountant General has power to visit the various departments and conduct a test check. There is a special Officer under the Accountant General to conduct such local inspections. All departments and sub-treasuries are visited and checked; and Inspection reports submitted to the Prime Minister from time to time who passes orders and instructions, as necessary.

One rotation of all the departments of the State is completed in nearly 2 to 3 years. In this way there is hardly any department the accounts of which are locally not checked and not inspected in 2 to 3 years.

Local audit and checking of the accounts of 22 departments including 2 Nizamats was conducted during the year under report.

T R E A S U R Y.

9. Prior to the 1st of April 1940 the work of the Treasury was divided into three branches:-

(1) Cash Branch (2) Stamps Branch (3) Pensions Branch.

On the 1st of April 1940 the Imperial Bank of India opened their branch at Alwar and the cash branch of the State Treasury was transferred to the Bank from that date. The Bank now performs the Treasury cash work receiving the State revenues and making disbursements

on behalf of the State. Besides the Bank at Headquarters which functions as the Central Treasury of the State there are 10 sub-treasuries in the 10 Nizamats in charge of the Nazims.

The Treasury Department itself has now only two branches. the Stamps Branch and the Pensions Branch. Details of Stamps section have been given under Chapter III.

10. The number of State Civil and Military Pensioners who have received their pensions from the Treasury during the last 3 years is given below:-

	1942-43	1943-44	1944-45
(a) Civil Pensioners	567	644	648
(b) Military Pensioners	1235	1220	1231
(c) Civil Allowance holders	22	20	26

5. The Alwar Jey Paltan continued service overseas Oversea service & Training along side His Majesty's Forces. It rendered service in Eriterea, Abbyssinia, Egypt, Palestine, Syria, Cyprus, and Rhodes in the south of Crete.

The training in the Alwar Training Centre was set on proper footing and the training in modern arms was extensively given. More attention was paid towards the Post Basic Training. The unit was inspected by the D.M.T. in December last and the Military adviser-in-Chief in January 1945 and was very well spoken of. Training Centres to prepare N. C. Os as instructors were organised. The camp training of recruits was also arranged at various places. The training of drivers has been well carried out and it has been possible to despatch a large number of trained drivers overseas.

The following vacancies were allotted to the State Officers, Indian Officers, N. C.Os and men of the State Forces at the various Army Schools. All vacancies were taken up and the services of the students were fully utilised on their return. In addition, a number of State Officers, Indian Officers and N.C.Os and men of the Alwar Jey Paltan attended various courses of training in the Middle East,

15. One Gazetted Officer and 2 Sub-Inspectors are receiving training in British India with a view to improve the efficiency of the rank and file. A Training School on the model of Police Training Schools in British India has been started. Training is imparted in the following subjects:-

1. Law 2. Police 3. Drill (including P.T. and
Instructors Course) 4. Musketry 5. General
knowledge and 6. Finger prints.

Punctuality and general good character are insisted on and separate marks are allotted for them.

Sardar Jagat Singh Superintendent of Police worked as the Principal of this School. He was assisted by 4 Law Inspectors and 4 Drill Inspectors.

Out of the 71 men who took test, 68 passed securing more than 60 marks. 10 out of 68 successful candidates secured 75% marks and thus qualified themselves for First Class Certificate, which entitled them for promotion to the post of H.C.

To encourage literacy among constables Literacy Allowance of Rs. 1/- is granted to literate men. Those who pass the test of the School are given an allowance of Rs. 2/-p.m. The grant of allowance has provided an incentive to the School pupils to pass the Police School Examination.

16. In order to tighten up discipline in the Force His Highness' Government have granted more powers to the Police Officers.

Discipline.

A sum of Rs. 2,73 was distributed in rewards during the year. 16 Officers and men were awarded major punishments, 9 being dismissed and 7 reduced in rank. One Head Constable was prosecuted under the Police Act for cowardice in facing dacoits. One constable was proceeded against under Essential Services Ordinance for absence from duty. 11 constables were convicted under the Police Act, one under section 457 I. P. C. and one under 408 I. P. C.

17. Due to the recruitment in the Army suitable
 Recruitment candidates were not forthcoming for the
 Police and at the close of the year there
 were 78 vacancies.

18. There was no political unrest in the State. The
 Peace and Order year passed in a calm and quiet atmos-
 phere.

There was a minor incident about the shrine of Lal
 Dasis at Dholi Dub. Prompt measures were taken to
 preserve Law and Order. The Parties in dispute, Mohom-
 medans and local Lal Dasis, ultimately compromised and
 the shrine was restored to Lal Dasis.

Relations between the Police and the public were
 satisfactory.

19. There are about 2,000 Chowkidars in the State
 Village Police engaged on fixed salaries which are rea-
 lised from the villagers along with the
 Land Revenue. Every village has its own Chowkidars.
 Their work is supervised by the village Lamberdars who
 are also responsible to watch the movements of the regis-
 tered members of criminal tribes. The system is working
 satisfactorily.

20. The number of registered members of the crimi-
 Criminal Tribes nal tribes at the beginning of the year was
 3162 but at the close of the year it diminished to 3,039.
 As generally Minas have been responsible for crimes
 against property, every effort is being made to reform
 this community. It is a good sign that the Minas them-
 selves have realised the importance of the introduction
 of social reforms in their community. They have been
 holding Panchayats and, on penalty of social boy-cott,
 compelling the members to give up criminal habits and
 take to peaceful and honest occupations. The Govern-
 ment has also been encouraging them by removing
 restrictions on their movements in deserving cases.

21. The gang of the notorious Briju Singh which had
 Crimes. been responsible for dacoities in villages of Alwar and Jaipur was broken up after the arrest of Briju-Singh by the Jaipur Police. Dacoity operations however continued under the leadership of his associates Mahadev and Mangia minas who were responsible for a few dacoities in the Alwar State. To check their depredations several effective measures were adopted, eg,

1. Organisation of Armed Societies for village protection.
2. Grant of substantial rewards to those helping in their arrest.
3. Grant of maintenance allowance to those injured,
4. Creation of a Cavalry Picket Force.
5. Formation of Special Dacoity Districts etc.

These arrangements improved the situation and no dacoity took place after they were brought into force.

The total number of offences registered during the year was 1532 as against 1671 of the previous year. Investigation was refused in 45 cases. The remaining cases together with 258 cases of the previous year resulted in 1745 investigations. 248 cases were found to be false. 312 resulted in convictions and 228 in acquittals and discharge. At the end of the year there were 219 cases pending in courts. The percentage of cases convicted rose from 51.2 to 52 and that of persons convicted from 34.52 to 37.94

The total value of the property stolen was Rs. 1,73,710 as against Rs. 1,34,299/- for the previous year. The value of the property recovered was about Rs.45,000/- as against about Rs. 33,000/- of the previous year. This gives a percentage of 25.9 as against 24.4 of the last year.

Heinous offences numbered 65 as against 72 of the previous year. Dacoities increased from 4 to 10. Robberies and Burglaries came down from 29 to 11 and from 525 to 450 respectively

22. There were 30 cases under section 110 Cr. P. C Preventive Action and 35 under Section 109 Cr. P. C.

23. To meet emergencies, a special Armed Force Special Armed Force consisting of one Sub-Inspector, 3 H. C. 's, 10 Naiks and 100 constables was organised into the following three sections: -

- (1) Motor Bus section
- (2) Camel Sowars
- (3) Bicycle Sowars

This force has been properly equipped.

24. The office has been reorganised and its work Reorganisation of I.G.P's Office has been divided into 3 branches as follows:—

- 1 General Correspondence Branch
- 2 Technical Branch, including Taxation & Accounts
- 3 Criminal Branch, including crime & C. I. D.

25. Heretofore the constables and Head Constables Prosecution Staff were also allowed to prosecute cases in the subordinate courts. But instructions have issued that no officer below the rank of the Sub Inspector should discharge this duty. Proposals to employ Law graduates for the purpose are under consideration.

26. The actual cost of the force was Rs. 2,99,222/- Expenditure as against Rs. 256,572/- in the previous year.

27. There were 307 prisoners at the beginning
Population. and 318 at the end of the year under
report. 832 prisoners were admitted and 821 prisoners
were discharged.

The daily average of prisoners of various classes
confined in the Jail is compared below with that of
previous year:—

Classes	1943-44	1944-45

30. The general health of the prisoners remained satisfactory during the whole year. Particulars of sickness and mortality among all classes of prisoners for the year 1944-45 compared to those of 1943-44 are given in the following table:—

Health

Year	Daily average population	Daily average of sick prisoners	Percentage	Total Deaths	Ratio of deaths per 100
1943-44	319	24	7%	2	62
1944-45	345	22	6%	5	1.44

31. Discipline in the Jail was satisfactory during the year. The slight rise in punishments awarded to prisoners as compared to the previous year is due to the fact that a few dangerous convicts were admitted under Section 302 I. P. C. for murder and under Sections 395 and 397 I. P. C. for dacoity who proved to be somewhat unruly and had to be brought under Jail discipline and control.

II JUSTICE

Minister-in-charge

Prime Minister—Wazir-ud-Dowlah Rai Bahadur

Sir Seray Mal Bapna Kt.C.I.E., B.A., B.Sc., LL.B.

Head of Department

Chief Justice—R. B. D. V. Paranjape from 1-4-44 to 15-5-44

R. R. Pt. Rameshwar Nath M. A., LL.B.
from 16-5-44

The judiciary of the State is practically separate from the Executive. The Administrative and Executive work of the Judicial Department is disposed of and controlled by the Prime Minister.

The Chief Justice continued to enjoy certain administrative powers of the Minister as in the previous year.

10. The High Court is the principal Court of appeal subject to the provisions of section 25 of the Alwar High Court Regulation of 1941 and exercises extraordinary original Civil and Criminal Jurisdiction under section 10 of the Regulation.

Below the High Court is the Court of the District and Sessions Judge which on the civil side is the principal Civil Court of original jurisdiction.

Under the District and Sessions Judge's Court are the Courts of Munsiff-Magistrates. They are all Magistrates of the First Class and on the civil side their jurisdiction extends to suits upto the value of Rs. 3,000/-. They are also invested with original jurisdiction up to the limit of the aforesaid jurisdiction in cases under the Insolvency Act, the Succession Act and the Guardian and Wards Act. The Munsiffs excepting the Munsiff at Alwar exercise the powers of Judges of the Small Cause Court in suits upto the value of Rs. 200/-.

The Benches of Honorary Munsiffs at Alwar and Rajgarh were abolished with effect from the 1st of November, 1944.

On the criminal side there are 30 Courts of Magistrates of the First, Second and third Class, below the Sessions Court. There are two District Magistrates who exercise special powers under Sec. 30 Cr. P. C. The Magistrate First Class, Alwar also enjoys powers under sections 30 and 407 (2) Cr. P. C. for the whole of the State. Some of the First Class Magistrates have been invested with summary powers under section 260 Cr. P. C. In all there are 9 Courts of Magistrates of the First Class, 13 Courts of Magistrates of the Second class and 8 Courts of Magistrates of the Third class. Out of 10 Nazims those at Bansur and Ramgarh exercise First Class Magisterial powers, the remaining being Second Class Magistrates. Out of the 13 Naib Nazims 8 exercise Third class Magisterial powers and 5 Second class magisterial powers.

There are two Courts of Honorary Magistrates with Second class powers and 2 Benches of Honorary Magis-

trates with Third class powers in Alwar city. The Bench of Honorary Munsiff Magistrates at Rajgarh was abolished on the 1st November, 1944 and has been replaced by a bench of Honorary Magistrates with Second class powers.

10 Constructing 2 sheds for buffaloes with feeding troughs at State Dairy Farm	1,820
11 Constructing a room for Hakim Jagir above His offices in the Secretariat	1,737
12 Constructing an eye dressing room at Alexandra Hospital	765

7. The P. W. D. constructs and maintains all the ^{Irrigation} important bunds of the State. It is also in charge of the Siliserh Canal, but the collection of irrigation revenue, assessment of rent and all matters connected with irrigation is the responsibility of the Revenue Department.

No important irrigation works were carried out in the year, excepting the completion of the Bara Weir, the bulk of which was finished during last year and only finishing touches were given this year. The total expenditure incurred on this work is Rs. 1,83,258/- of which Rs. 98,737/- were spent during the year under report.

The total amount spent on works of original nature is Rs. 1,14,240/- and a sum of Rs. 19,566/- was spent on the maintenance and repairs of bunds and canals.

There are 149 bunds in the State large and small, of which 111 are now in good condition and 38 in breached condition.

8. The existing system of Electric supply in the city Electricity. is 440/220 volts-3 wire D. C. With the arrival of the plant which had been on order since 1941, but which could not be delivered due to war conditions, the new Central Power Station is now working to its full capacity along with the city sub-station. This has enabled a number of fresh connections for lighting, fans and for power being given. In order to increase the electrical income the Control over new connections was relaxed and 62 new connections were sanctioned and given to public consumers.

The rates of supply of energy during the year were:--

- | | | |
|-----|------------------|----------------|
| (a) | For domestic use | -/8/- per unit |
| (b) | For power | -/3/- per unit |

The number of connections during the last 4 years compares as follows:—

Year	Private connections		State connections	
	Light & fans	Power	Light & fans	Power
1941-42	372	5	158	13
1942-43	383	4	150	12
1943-44	384	4	159	12
1944-45	428	11	177	21

There has been an increase in the Electrical income of Rs. 13,000/- on account of fresh connections.

9. The existing system, is the magneto-single-wire-earth Telephones. return system, excepting one direct connection between Vijeymandir and Bhaktniketan, which is of

metallic return. The question of replacement of the existing system which is antiquated and defective, with the Automatic System will now be taken up with the Government of India. After some progress had been made in the year 1941 when some preliminary work was done, the matter had to be shelved for the duration of the war.

10. This is no longer a separate unit, with a separate budget as in years before, but now forms part and parcel of the P. W. D. with an authorised strength of 25 men, one Mate one carpenter and one Supervisor. Owing to high wages of labour, it has, however not been possible to keep up even to the small strength of 25 now authorised. Resignations have been frequent and only old or undersized men or young lads could be recruited and they too did not stick to the job for long, having been attracted by better wages elsewhere. Proposals for increase in the rates of pay are under consideration of His Highness' Govt.

The utility of a permanent labour unit is undoubtedly great and the desirability of raising the strength of this unit to at least 50 men is also under consideration of His Highness' Government.

11. There was no activity in the direction of town improvement, excepting the development that is going on in the industrial area where large industrial buildings are under construction. Proposals are under consideration of His Highness' Govt. for development of a Clerk's Colony west of Manu Marg and clearance of certain slum areas.

12. There were no contribution works undertaken on behalf of private agencies, excepting the Military Training Camps along the Seriska-Tehla road which were carried out on behalf of the Govt. of India, costing Rs. 8,990/-

13. In practically every work connected with war War Efforts. Effort, the P. W. D's share has been appreciable; in fact, the P. W. D. have had to bear the brunt of it. While the Chief Engineer has been the Controller for Iron & Steel, Pipes, Cement, etc. he has also been required to furnish from time to time statistics regarding various matters, such as: electricity, grow-more-food campaign labour resources, plant and machinery etc. etc. in response to Govt. of India circulars received direct or through the Political Agent, Jaipur. The Chief Engineer, has also been the Secretary of the War purposes Committee and Chairman of the Technical Training Selection Committee, Alwar.

14. About 36 candidates appeared, out of whom 14 Technical recruitment. were sent to the Publicity & Recruiting Officer, Ajmer, to receive technical training, out of the remaining some were declared medically unfit and others did not reappear. As arrangements for accommodation, messing, etc., at the training centres are now properly made, candidates are coming in for enlistment and it is expected that there will be a marked improvement in recruitment.

Apart from the technical training recruitment, recruitment has also been done of Civilian Motor Drivers and other personnel for Defence Services. In this connection a number of Technical Recruiting Officers have visited Alwar from Delhi for publicity and recruitment for the various branches of the Defence Services, Army, Navy and air Forces. A Mobile Cinema Unit visited Alwar in March 1944 and thereafter about 8 officers have visited Alwar at intervals for publicity and recruitment. Every facility and assistance was extended to these officers in their mission.

15. The expenditure incurred by the State on the
Expenditure Public Works Deptt. during the last 3 years
is given below:-

A full list of important industrial works and concerns of the State will be found in Appendix-D

3. Steps were also taken to re-survey and investigate the mineral resources of the State. Correspondence was opened, under orders of His Highness' Government, with Sir Cyril S. Fox, Kt., D. Sc., F. G. S., late Director, Geological Survey of India, who agreed to visit the State for making a survey of its underground wealth and to give the benefit of his

expert advice for assessing the possibilities of exploitation of mineral resources.

Survey and investigation was also conducted departmentally by the Mines Officer who discovered deposits of Garnet—a semi precious stone and high class marble.

Samples of copper ore were sent by the State to the Government Test House, Alipore, Calcutta for analysis and examination. The report received indicates good percentage of copper in the samples and the result is encouraging. The question of exploitation of the copper wealth and resources is under the careful consideration of His Highness' Government.

II AGRICULTURAL DEPARTMENT.

Minister-in-charge

Revenue minister—R. B. Miyan Lal Singh

Head of Department

Agricultural Officer—Mr. Lakshman Swarup B. Sc. Ag.

4. During the year under report 3 State and 2 aided Farms continued to work satisfactorily on improved lines.

The main functions of these farms are:—

- (1) Trials of important crops e.g. sugarcane, wheat, gram, barley, oats linseed, bajra, groundnuts, tobacco etc. to find out the best for the locality.
- (2) Raising seeds of standard crops for multiplication in areas controlled by seed stores.
- (3) Demonstrations of crop rotations, intensity of cropping, use of improved seeds and cultural treatment of the soils.

(4) Trials of labour saving devices and their demonstrations to the public,

5. The now firmly established and leading commercial wheat for the State C. 591 continued to spread rapidly. The cultivation of paddy in the tank beds of the State gradually expanded. The yield results of paddy have gone as high as 11 mds. per bigha in Ajabgarh tank and this comes up to the level of production of some of the British Indian provinces. With a fairly good return, the zamindars find in paddy a crop for cultivation during the inundation period of the tank.

Other varieties of improved seeds have also grown in popularity. During the preceding year the following improved seeds were selected and distributed to the cultivators:—

Wheat C. 591 and Bansipalli 808, Barley C. 255, Gram Sabour 4 Oats B. S. 1. Sugarcane Co. 331 and 312, Soyabeans black, Maize Salina and Paddy T- '21 and Bishenpirag.

Number of wells bored	13

Improved implements sold	13
Days of the Crusher on hire	98
Area cleared of pests in bighas	660
Tobacco seedlings distributed	1,04,200

7. Vocational Training of the Military Units in the elementary principles of agriculture was taken up at the State Farms at Alwar. Two batches each consisting of 10 soldiers were given two months practical training at the Farm.

8. In order to improve gardening tendency in the Districts the Department undertook:—
Garden Improvements

- (1) The management of the Kishangarh garden.
- (2) New plantation of grafted mangoes, maltas and oranges in the Rajgarh gardens.
- (3) Viticulture experiments at the State Farm at Alwar.

The newly planted gardens showed good prospects and the experiments in viticulture at the farm were quite successful.

9. During the year under report the Irrigation and Agricultural Development Committee consisting of the Agricultural Officer, Asst. Engineer and a Nazim was appointed to survey the existing agricultural conditions of the State and to suggest ways and means for improvement. The recommendations are under the consideration of His Highness' Govt.

IV CATTLE BREEDING FARM

Minister-in-charge

Army Minister—Major General Abdul Rehman M B. E.
 O. B. I.,

Head of Department

Superintendent...Pt. Hira Lal Patel

23. Before the year 1933 the State maintained a
 Foreword Gowshala. This was converted in that year
 into a modernised dairy under a properly qualified officer.
 In 1937 the State invited Sir Arthur Olver, Animal
 Husbandry Expert to the Government of India, to give
 advice in regard to the improvement of the livestock in
 the State. He toured in the districts to see the cattle and
 examine local conditions and prepared a scheme in which
 he advocated particularly the improvement of indigenous
 breeds of cattle. In 1938 his successor Ware Mr. F. was
 invited to the State for similar purpose and he suggested
 that in place of existing dairy farm a Cattle Breeding Farm
 should be established. In order to promote the develop-
 ment of indigenous breeds, such a farm was started at the
 close of the year 1938-39. The Dairy Section was however
 again started in 1942,

24. The two main breeds of the cattle indigenous
 Cattle Breeds in the State to Alwar are Mewat and Rath. The Mewat
 is big sized, strong and some what lanky,
 rather after the Hariana Type of cattle but is fine draught
 animal. It is confined to the eastern and north-eastern
 parts of the state which are the Nizamats of Alwar, Lachh.

mangarh, Ramgarh, Tijara and Kishangarh. The Rath is not very big but is particularly compact, and well formed with clean well developed limbs, good bone and feet of good quality. It is suitable for medium draught. This breed is confined to the north-western portion of the State, that is to say, the Nizamats of Mundawar, Behror & Bansur where grazing is more difficult to find. Neither breed is great milkers but the new Cattle Breeding Farm hopes to increase the milk yield while preserving the good draught propensities of both.

25. At the end of the year 1944-45 the number of Activities of the farm the two breeds in the farm was:-

	Rath	Mewat
Stud bulls	2	2
Stud calves	18	23
Cows	24	33

IX MUSEUM

*Minister-in-charge**Home Minister*--Kr Raghbir Singh B. A.*Head of Department**Superintendent*--Captain Gopal Singh

N. B. As the services of Captain Gopal Singh were given in loan to the Sachin State, L. Chunni Lal Munsarim Deodhikhas worked for him.

28. The State Library, the Art gallery and the State Foreword Armoury were reorganised in November 1940 and the following departments were amalgamated and now form the State Museum:—

- (a) The Library.
- (b) The Art Gallery.
- (c) The Armoury.
- (d) The Museum.

The Museum is fortunate in having at its disposal three magnificent rooms on the top storey of the city Palace for the display of its various exhibits. One room, the Armoury, contains selected swords, guns, and arms of all kinds; the second room, a very fine collection of paintings and manuscripts etc. forming what was previously known as the State Library and Art Gallery and the third, various objects of interest connected with the past rulers and with the State itself, collected from places all over the State and including a few objects of archaeological interest

29. The State Library was founded early in the 19th The Library century by Maharaja Viney Singhji. A portion of it also came from Tijara on the death of Maharaja Balwant Singhji. It has a choice collection of the old manuscripts mostly in Sanskrit, and a few works in Arabic and Persian of outstanding value,

The Library consists of:—

Sanskrit Books	4,938
Hindi "	897
Urdu "	684
Persian & Arabic Books	962
English "	296

Of these about 100 manuscripts are of considerable importance and value.

Two books of reference have been prepared up to date from which information of the contents of the Library can be obtained. They are "Alwar and Its Art Treasures" compiled by Surgeon Major T. Holbein Hendley and published by W. Griggs Hanover Street, London in 1888, and a catalogue of the Sanskrit manuscripts prepared by Dr. Peter Peterson, Sanskrit Professor, Elphinston College, Bombay, and printed in 1892.

The more important manuscripts of the State Library are mentioned below:—

(1) The place of honour among the manuscripts must be given to the 'Waqayat Babari'. It is one of the few copies of the work which are in existence and was executed almost at the same time as the original composition of the book itself. In the last page of the book is inscribed the name of the calligraphist, Ali-Ui-Katbi, also known as Mir Ali of Herat, and the date of its composition viz. 937 A. H. (about 1530 A. D). It was transcribed in the reign of the Emperor Humayun (1526—1555) and bears his personal seal. It was sent by His Highness the late Maharaja Jey Singhji for display in the London Exhibition.

(2) The illuninated manuscript copy of Sadi's Gulistan written by Agha Mirza of Delhi at the instance of and during the reign of Maharaja Viney Singhji.

Each page is said to have taken about fifteen days to prepare, and the borders of each page, which were designed and painted by Natha Shah and Qazi Abdul Rahim of Delhi, required from two to four days to paint. The illustrations were painted by artists of Alwar. The whole work took twelve years to complete and is said to have cost about a lac of rupees.

- (3) A beautifully illuminated copy of the Quran in Arabic. This work was purchased by Maharaja Viney Singhji from a Mohammedan traveller at a cost of Rs. 3, 000/-. The calligraphy is remarkably neat, and one of its most beautiful features is the regularity of the white border left round each of the letters of the text.
- (4) The "Haft Band Kashi", written on both sides of 13 ivory sheets by Hafiz Nurullah, of Lucknow in the year 1835 under the orders of Nasiruddin Hyder, the King of Oudh.
- (5) A thumb-nail-worked copy of Sheikh Sadi's "Karima" executed by Ghulam Mustafa bin Mohammed of Sialkot in the Punjab. The book is bound in leather.
- (6) The "Git Govind" written by Jaya Deva, a Bengali poet of the 12th century. The book contains 35 fine illustrations and was probably executed in the early years of the 19th century.
- (7) A copy of the "Bhagwat Gita", containing 24 paintings probably written in the middle of the 19th century.
- (8) A long cloth mounted roll in which the whole of the "Mahabharat" is written in very small characters. There are 61 paintings and insets

and the work was written in the early years of the 19th century.

Alwar attained some celebrity in the past on account of its book binding. The art was introduced by one Abdul Rehman who learnt it from a Fakir in Lahore and then came to settle in Alwar. He died in about 1888 but a number of samples of his excellent work may be seen in the Library.

The binding has a speciality, the ornamentation whether in colour or gold, being some what after the Grolier style in which the colours are painted on the boards and are not inlaid. The art has unfortunately declined, but in its heyday it attracted the admiration of royal and distinguished personages, including Her Majesty Queen Victoria to whom a specimen of it in the form of covers to a volume containing the name of subscribers to the National Fund established by Her Excellency the Countess of Dufferin, was presented.

30. The Art Gallery consists almost entirely of The Art Gallery works of Indian art, mostly of the Moghul period. The majority of the good pictures are water colours by Moghul painters with a certain number by artists of the Rajput School. The Gallery contains a number of fine miniatures painted on ivory and some very fine samples of illuminated calligraphy. Of the many valuable and rare paintings in the Art Gallery may be mentioned those representing:-

- (1) Amir Timur with the imprisoned Sultan Bayazid of Turkey (1402) and attended by Agha Isha Kabli and Agha Fida Kabli, painted by Alam, son of Mohammed Talib during the reign of Shah Alam Ghazi.
- (2) Jehangir with a golden orb in his hand; painted on the 11th anniversary of his reign (1616 A.D.) and with an impression of the Imperial seal on the back.

- (3) Jahangir playing Holi in his garden, an early 18th Century work.
- (4) Shah Tahmasp of Persia by Farrukh Beg. This is a very fine portrait with beautiful subdued colouring and excellent line work showing slight influence of the school of Riza Abbasi—An early Mughal period work.
- (5) Jahangir shooting an arrow through a negro's head while standing on a terrestrial globe placed on the shoulders of a cow which stands on the back of a fish. At the bottom is painted the famous scales of justice with a goat and lion meekly sitting together. On either side are medallions depicting the Princes of the House of Timur—Early 17th century work.
- (6) Portrait of Babar and young Humayun in fighting kit with Mirza Hoshiyar in attendance. A very fine example of the Indo Persian style of painting.
- (7) A procession of Akbar II in three pieces.

31. The State Armoury which may be said to have
 been in existence since the year in which
 the State was founded, contains numerous weapons of rare
 workmanship, and a large assortment of arms and equip-
 ment of all kinds. The Armoury consists of:—

(1)	Swords	2183
(2)	Guns and Rifles	2,157
(3)	Pistols	274
(4)	Shields	400
(5)	Daggers	675
(6)	Battle-axes	38
(7)	Spears	73

Alwar has long been famous for its swords. About 150 years ago two skilful brothers, Sheikh Ahmad & Gul Ahmad, descendants of a family of famous sword makers of Persia

then in service at the Imperial Court at Delhi accepted the offer of Maharaja Bakhtawar Singhji and came to reside in Alwar. They introduced the old Persian art of producing watered steel. The fine examples of inlaid, enamelled and damascened swords which can be seen in the collection bear testimony to their art, and the skill and fine workmanship which is still possessed by their descendants. Five of the more famous swords of Alwar have been sent at different times to exhibitions in London, the United States of America, and to several places in India.

Mention may be made of the following:—

- 1 Sword of Ali—An inscription on the blade indicates that Ali received it from the people of Egypt in the second year of the Hijri era.
- 2 Sword of Shah Abbas of Persia—A splendid sword of Persian manufacture with a beautiful hilt.
- 3 Shah Jehan's Sword—A fine specimen of the work of Gujerat.
- 4 Sword of Dara Shikoh, son of Shah Jehan—This was manufactured by Mohd. Seleh, ancestor of the present sword makers of Alwar,
- 5 Sword of Nadir Shah Durrani of Persian Manufacture of a High Order—The hilt is of walrus ivory.
- 6 Talwar Sosan-Patta—But, manufactured in the time of His Highness Maharaja Bakhtawar Singhji.
- 7 Talwar Foladi—A sword said to have been valued at Rs. 1,00,000/-. It was prepared by the sword makers of Alwar.
- 8 A sword made from 4 different species of steel (Folad and Sakela)
- 9 Talwar Sudet Sakela Dudhara—A sword of Akbar the Great, with his picture engraved on it.
- 10 Halabbi Sakela—A sword of the Emperor Jehangir with his picture engraved on it.
- 11 Talwar Walayti Folad—A sword of the Emperor Alamgir with his name engraved on the back in gold.

32. The Museum contains several exhibits which are of interest to the general public of the State. Although it contains articles of archaeological and antiquarian interest the majority of the articles displayed are ordinary and more of interest to the people of the State than to the casual visitors. Amongst the objects of interest are a few of the personal belongings of each of the previous rulers of the State, a special mechanical silver banquetting table prepared in the time of Maharaja Viney Singhji, one or two articles of the State Regalia such as the original "Mahi Maratib" (The Fish Emblem) presented to the founder of the State by the Moghul Emperor Shah Alam, a banner presented by Queen Victoria to His Highness' Maharaja Sir Mangal Singhji; samples of Indian jewellery, silver, pottery, etc, and a collection of some stuffed animals and birds.

In addition to the few inscriptions, samples of stone carvings etc. already collected in the Museum a start has been made to collect further articles of archaeological interest from places in the State where they are found. It is hoped that a regular section for all these exhibits will be formed in due course of time.

The following articles were sent to the Udaipur Exhibition in the year under review:—

Books	(1) Waqayat Babari.
Pictures	(1) Jahangir (2) Akbar II (3) Humay & Babar (4) Aurangzeb in Daulatabad

X PRICE CONTROL

Minister-in-charge

Home Minister—Kr. Raghubir Singh B. A.

Head of Department

Price Control Officer—Mr. Chandra Shekhar Gupta M.Sc.

34. The administration of control was assigned to the
 Foreword. Collector of Customs and Excise in addi-
 tion to his normal duties early in the year

1942. As the control measures adopted by His Highness' Government underwent considerable expansion, necessity was felt to organise and constitute a separate Price Control Department under the control of a whole time Officer and this department was established on the 27th April, 1943.

The Price Control machinery had to be further extended during the financial year under report to relieve pressure of work in the Price Control Department. The District Officers were appointed Civil Supply Controllers for their respective districts and Assistants were provided to help them.

35. Before the creation of a separate department, an attempt was made to control the prices of food grains in the State and to exercise some sort of control over Kerosene, Diesel Oil and Sugar and the following control Orders were promulgated in the State:—

- (i) Foodgrains (Future & options Prohibition) Order, 1942.
- (ii) Foodgrains Control Order, 1942 (Repealed)
- (iii) Essential Articles Control Order, 1942 (Repealed)

During the financial year 1943-44 the previously promulgated control orders were revised and the following Control Orders were promulgated as it became necessary to extend the measures of control over several essential articles:—

- (1) Shuttles Control Order, 1943 (Repealed)
- (2) Healds and Reeds Control Order, 1943 (Repealed)
- (3) Bleaching Powder and Chlorine Control Order, 1943.
- (4) Crystal Sugar Conversion (Control) Order, 1943 (Repealed).
- (5) House Rent Control Order, 1943.

- (6) Cotton (Forward Contracts and Options Prohibition) Order, 1943.
- (7) Oil-seeds (Forward Contracts Prohibition) Order, 1943.
- (8) Cotton Cloth and Yarn (Control) Order, 1943.

- (20) Aluminium Control Order, 1944.
- (21) Sugar and Sugar Products Control Order, 1944.
- (22) Imported Engineer Stores " " 1944.

The Price Control Department attempted to control the prices of sugar, wheat products, matches, kerosene, gur, jaggery powder, diesel oil, cloth, yarn and confactionery during the year 1943-44 and the distribution of each commodity was made according to plan by allocation of quotas to urban and rural areas, control of imports and regimentation of supplies from supply centres to the places of distribution.

During the year under report the control was extended to Indian woollen goods, footwear and Brass Utensils. The following control orders were enforced in the State;—

- 1 Drugs Control Order, 1944.

- 2 Indian Woollen Goods Control Order, 1944.
- 3 Textile Industry (Miscellaneous Articles) Control Order, 1944.
- 4 Footwear Control Order, 1944.
- 5 Foodgrains Flour (Use in soap making) Prohibition order, 1944.
- 6 Brass Utensils Control Order, 1945.

Near the end of the year shortage of Mill Made Cloth and Yarn began to be felt in the State due to stoppage of supplies from the main distributing centres situated in British India. His Highness' Government immediately prohibited export of cloth and yarn with a view to conserve existing stocks of cloth and yarn and attempted to move appropriate authorities for releasing necessary stocks. The supply position of all other controlled articles remained quite satisfactory during the financial year.

36. At all the principal supply centres, registered associations of well established importers and wholesale dealers which were constituted in the year 1943-44 to eliminate individual competition, continued to work.

The main supply centres are given below:—

- (g) Clerical establishment of Price Control Dept-6
- (h) " " of Civil Supply Controllers—2.

38. Necessity was felt in the middle of the year 1944-45 to control the upward tendency of house rent in Alwar City. The House Rent Control Order was therefore promulgated and the Price Control Officer was appointed as Rent Controller. The Rent Controller was extended to non-residential

houses during the year under report as the land-holders enhanced rents of shops and godowns to a considerable extent. Effective measures were taken to protect the interests of tenants.

The total number of cases instituted and disposed of during the year were as follows:—

Number of cases instituted	Number of cases disposed of	Number of cases pending on 1-4-1945
84	55	29

39. The total income of this department during the financial year was Rs. 69,168/- which was derived from licenses etc. The expenditure incurred during the year under report was Rs. 12,223/-.
